

WT MICROELECTRONICS

**UNCAC Anti-corruption
Policy**

Effective July 2020; last updated July 2020

WT [United Nations Convention against Corruption\(UNCAC\)](#) affirms the principles that guide the behavior of employees, subsidiaries, members of our Board of Directors regarding their WT related activities.

The policy addresses the flow of capital among different stakeholders and the main economic impacts of an organization throughout society.

Anti-corruption is understood to include practices such as bribery, facilitation payments, fraud, extortion, collusion, and money laundering; the offer or receipt of gifts, loans, fees, rewards, or other advantages as an inducement to do something that is dishonest, illegal, or represents a breach of trust. It can also include practices such as embezzlement, trading in influence, abuse of function, illicit enrichment, concealment, and obstructing justice.

We are aware of corruption is broadly linked to negative impacts, such as poverty in transition economies, damage to the environment, abuse of human rights, abuse of democracy, misallocation of investments, and undermining the rule of law.

WT responds aggressively to the global marketplace, international norms, and stakeholders to demonstrate their adherence to integrity, governance, and responsible business practices.

Signed

A handwritten signature in black ink, appearing to read "Chen Cheng", written in a cursive, flowing style.
